I got kessler to stop being a faggot about you and DS

Eli Mosley#5269 2017-08-09
now you are upset because we are planning for worst case and best case scenarios

Eli Mosley#5269 2017-08-09
instead of just being a team player and going with the plan you are insisting to be difficult and I dont understand why. I get that you dont want to be and dont want DS relegated to some B squad tier shit. I agree with that. But that is so far down on the list of things either of us should be worried about.

I think you are acting like and everyone is going to perceive like the one being foolish here if you act like this. Everyone right now is on your side but Kessler bent the knee and now you are acting like a brat.

Dude the only one not friendly towards you or DS has been Kessler. That is it. Everyone else has and we all conspired and mutinied to get you here and now you are throwing it back in our face because of the order at which you are slated to speak during one of the MANY security plans. That is not how an adult or team player acts.
