The future of our movement is in you and daily stormer and your guys. Not fucking Jason Kessler lol

Hey im sure people have already told you but could you remove the tiki torch piece of your article when you get a chance? That piece is secret right now and we dont want the enemies to know. Also, its so fucking hilarious but i just got off the phone with kessler and he is like "so glad the stormer guys are coming on our side now that this is turning to a shit show" which is hilarious since that exactly what I told him weeks ago lololol
